

Tusen och en natt

Bortom

mörkret

finns en evighet (åt sidan)

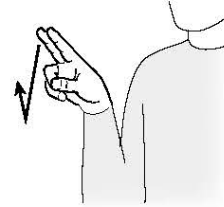

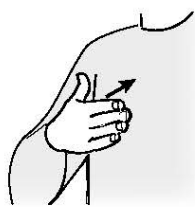

Himlens alla

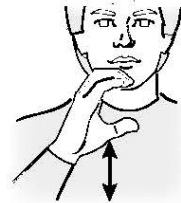

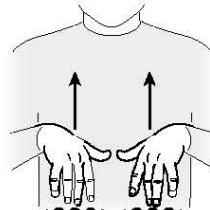

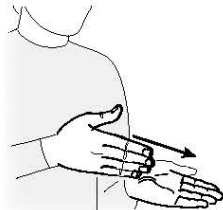

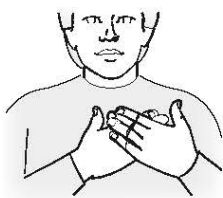

stjärnor

lyser

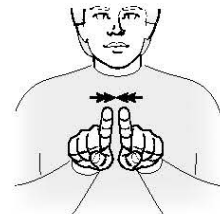

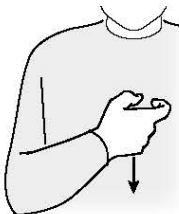

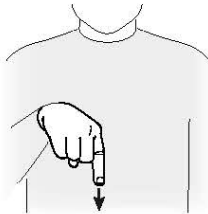

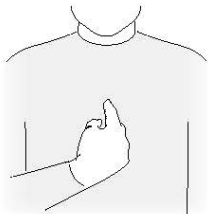

upp i natten (blinkar)

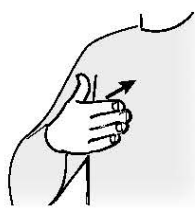

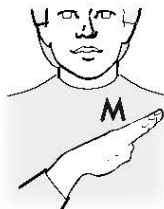

kanske att min dröm blir verklighet

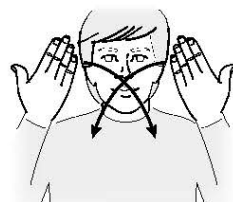

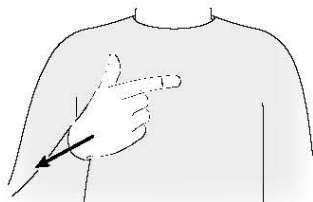

för din kärlek går jag genom eld och vatten

jag vill ha dig här hos mig och alltid vara nära dig

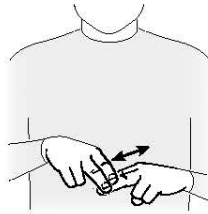

Du finns i mina drömmar

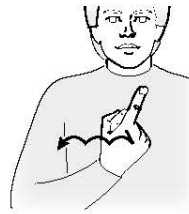

tusen och en natt

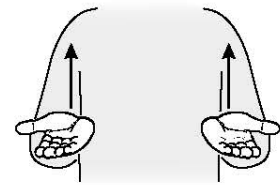

väcker mina

känslor

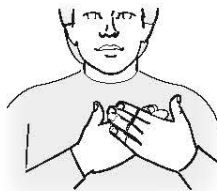

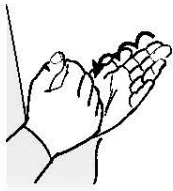

varje tidig

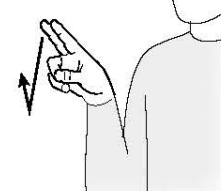

gryningsmorgon

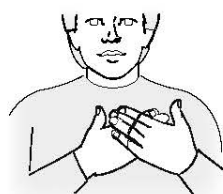

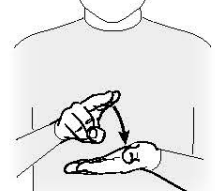

sagan om vår

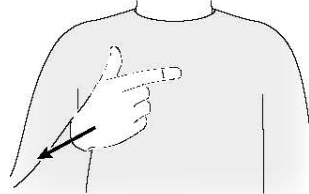

kan bli verklig,

kan bli sann

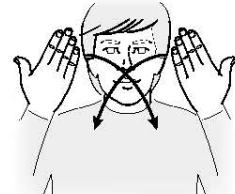

om du älskar mig i

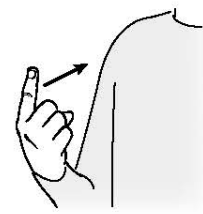

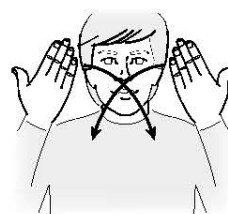

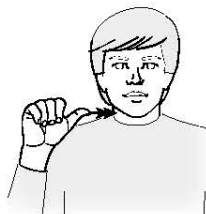

tusen

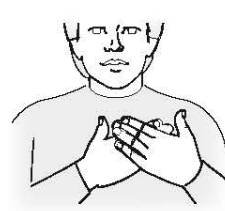

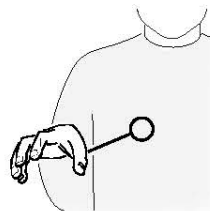

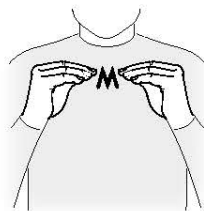

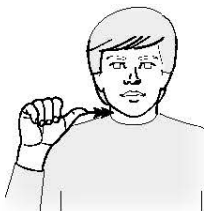

och en

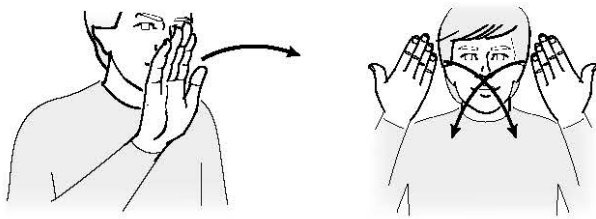

natt

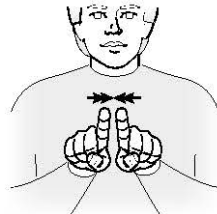

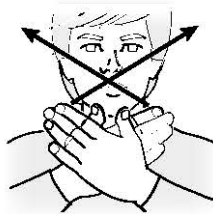

2. Som en tjuv (eller dra vid ögat) om natten kommer du

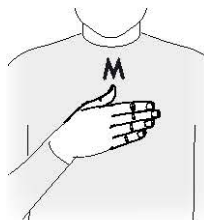

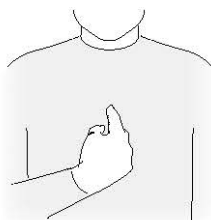

stjäl(dra utåt)en kyss o tar (från hjärtat) det mesta av min kärlek

utanför så är det mörkt ännu

när det ljusnar vill jag vara i din närhet

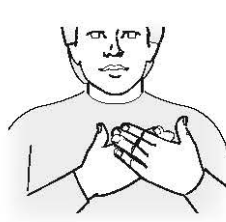

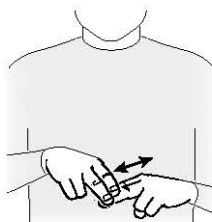

jag

vill

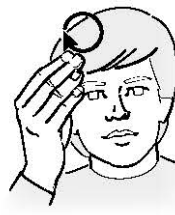

vakna

upp

med dig

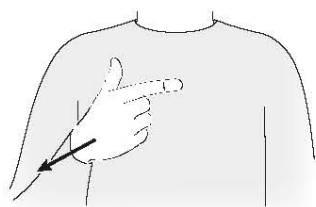

och känna att du älskar mig

Du finns i

mina

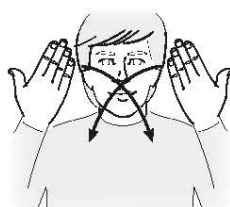

drömmar

tusen

och

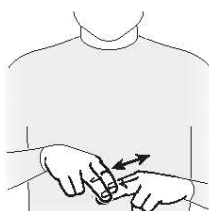

en

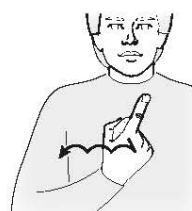

natt

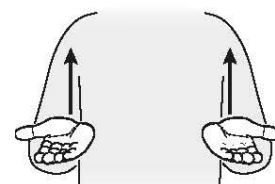

väcker mina

känslor

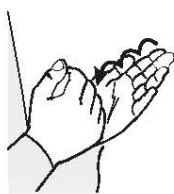

varje tidig

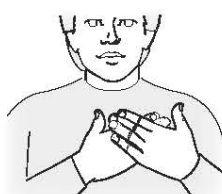

gryningsmorgon

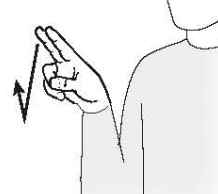

sagan om vår

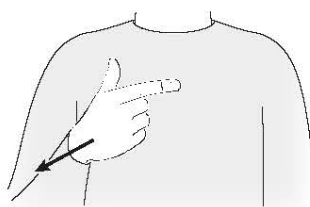

kärlek, kan bli verklig,

kan bli sann

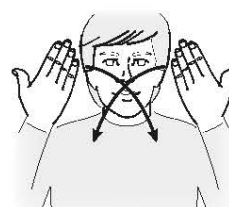

om du älskar mig i

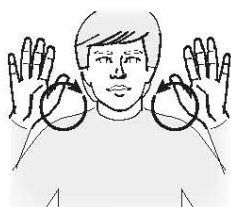

tusen

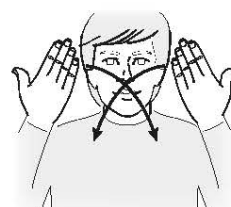

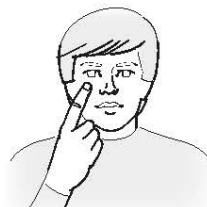

och en

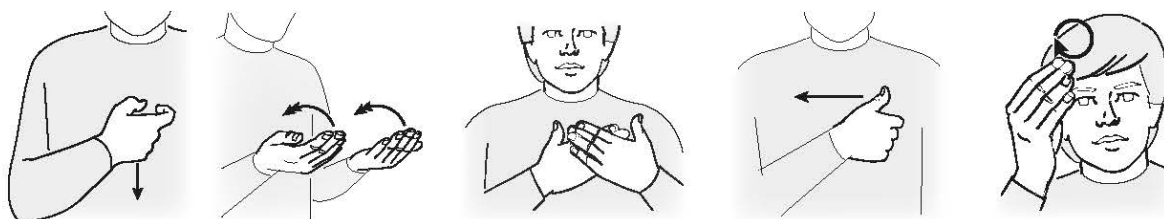

natt

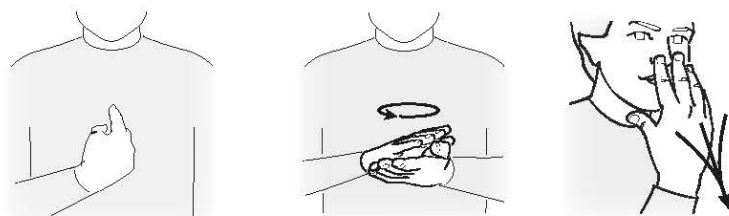

skuggor som faller (dra nedåt) i den blåa

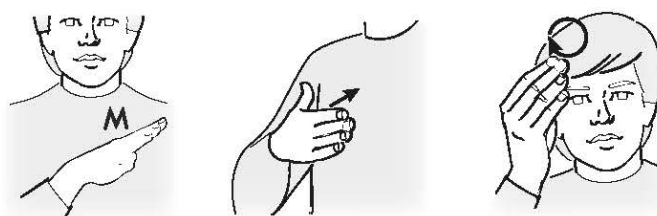

skymningen

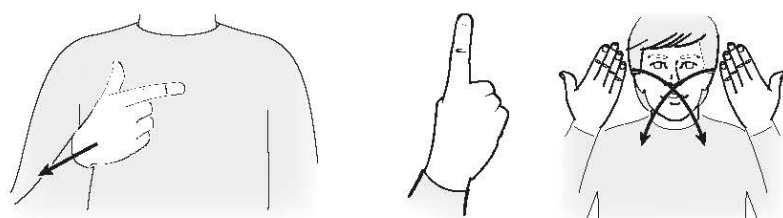

får mig att längta efter kärlek och bara drömma

jag kan aldrig glömma

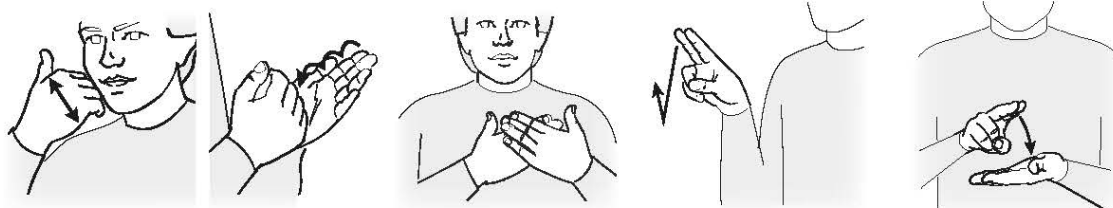

Du finns i mina drömmar

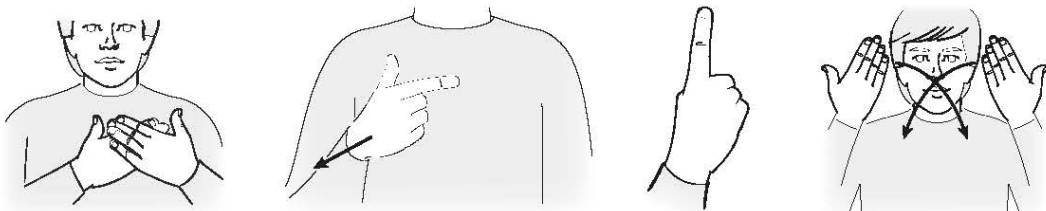

tusen och en natt

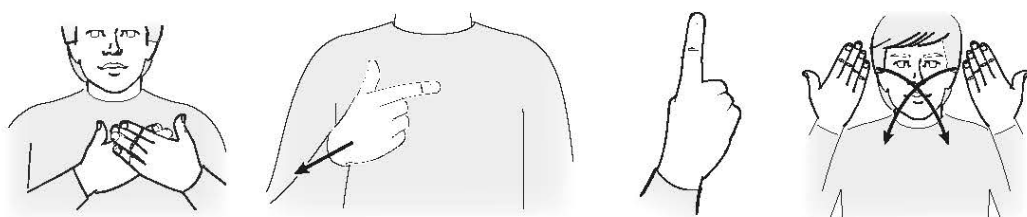

väcker mina känslor varje tidig gryningsmorgon

sagan om vår kärlek, kan bli verklig, kan bli sann

om du älskar mig i tusen och en natt

för jag ska älska dig i tusen och en natt
